## Investment Strategy

The "Twelve Points Retirement Advisors Conservative CIT" (the "Conservative Fund") is an asset allocation Fund that seeks current income, capital preservation, and long-term capital appreciation and primarily invests the assets of the trust among exchange traded products, mutual funds and individual equities that provide balanced exposure to domestic 2 and international debt and equity securities. Investments in individual equities will primarily, if not exclusively, be made through the CITs advised by the Sub-Advisor (through a "nesting" class without a second layer of Trustee Fees or advisory fees) to allow for efficient management of equity trades. The Conservative Fund typically allocates approximately 20% of its assets to equity securities and 80% in fixed income securities, though this percentage can vary based on the Sub-Advisor's tactical decisions.

## Investment Philosophy

The SubAdvisor's investment process relies on proprietary quantitative models as well as the SubAdvisor's fundamental views regarding factors that may not be captured by the quantitative models. The allocations to each asset class will change over time as the Sub-Advisor's expectations of each asset class shift. The Conservative Fund's indirect holdings by virtue of investing in securities representing these asset classes consist of a diversified mix of domestic and international, including emerging market, equity securities across all market capitalizations, investment-grade and high yield government and corporate bonds, inflation protected securities, mortgage pass-through securities, commercial mortgage-backed securities, commodities and real estate investment trusts (REITs). In addition, the Conservative Fund may invest in cash and cash equivalents or money market funds.

## Expense Relative to Peer Group

Peer Group (5-95%): Separate Accounts - U.S. - Aggressive Allocation
